Project: FoovyGear Project

Date: 07/12/2025

Author: Khaleel Alabbadi / Yamen Hammoud

1. Introduction

FoovyGear Project is a web application that allows users to browse and purchase football products online. The purpose of this application is to provide a simple, user-friendly platform for football enthusiasts to find and buy their desired products efficiently.

2. Getting Started

System Requirements

- Browser: Chrome, Firefox, Edge, or Safari (latest versions recommended)
- Operating System: Windows, macOS, or Linux
- Internet connection

Accessing the Application

1. Open your web browser.
 2. Navigate to the application URL: http://localhost:8000/football_store.html
-

3. Features / Functionalities

- **Browse Products:** Users can view all available football products with images and prices.
 - **Search & Filter:** Search for products by name or filter by categories.
 - **Add to Cart:** Select products to add to your shopping cart.
 - **Checkout:** Complete the purchase process by providing necessary details.
 - **User Interface:** Simple navigation and responsive design for easy browsing.
-

4. Usage Instructions

1. Browsing Products

- Open the application homepage.
- Scroll through the product listings or use the search bar to find a specific item.

2. Adding Products to Cart

- Click on the “Add to Cart” button next to the desired product.
- Review items in the cart by clicking the cart icon.

3. Checkout Process

- Go to the cart page.
 - Enter your information (name, address, payment details if implemented).
 - Confirm the order by clicking the “Checkout” button.
-

5. Troubleshooting

- **Page not loading:** Check your internet connection and ensure the server is running if using localhost.
 - **Products not displayed:** Refresh the page or clear browser cache.
 - **Checkout issues:** Ensure all required fields are correctly filled.
-

6. Contact / Support
